

Another opportunity for VTU students

With new rules of VTU, we are here with an **intensive training cum internship program**

You actually have options. Either you can procrastinate and miss another opportunity to learn, "to really learn" your favorite technology. Or you can take step towards your growth NOW.

You know what you want to learn, what you need to learn in order to set your path to advancement of your career. Here is another semester break, another opportunity to learn. You need an internship. Use this internship to learn something which will take you one step forward towards your goal, towards your dream career that you always wanted to pursue.

Imagine 30 days with an expert of a technology that you want to learn. A classroom in which you are most comfortable to ask questions and doubts, side by side doing practical and real projects. An internship well used.

Get intensive training on a technology of your choice and get certificates for training as well as internship.

Training cum

Batches start from:
10th, 15th, 18th January
2019

Internship Program **Limited Seats!!!**

Exclusively for VTU students (Duration : 30 days)

Use your time wisely !
Attend a single program and get 2 different certificates 1. Winter training 2. Industrial Internship

Courses offered:

With FREE SOFTWARE give away kit:
Android application development
Python
JAVA application development
Web development using PHP
Core application development in C
Web development using CMS

With FREE HARDWARE give away kit:
Internet of Things with NODEMCU
Internet of Things with ARDUINO
Robotics with MATLAB
Python with Raspberry PI
Embedded systems with ARDUINO
Robotics with AVR

1. Extensively researched training content 2. Free take away kit to every candidate
3. Unlimited support for final year project 4. Basics and hands on practice focused sessions

We at VTU solution, are committed to deliver you value. Program details are as follows:

- *Intensive classroom training*
- *Practical and real projects*
- *30 day duration*
- *Free take away kit*
- *N number of projects covered*
- *Free support for major project*
- *One program, two certificates:*
 - a) *Winter training*
 - b) *Industrial Internship*

Courses offered:

With FREE Software kit for each individual candidate

- **Android application development**
- **Python**
- **JAVA application development**
- **Core application development in C**
- **Website development using PHP**
- **Website development using CMS (WordPress)**

With FREE Hardware and Software kit for each individual candidate

- **Internet of Things (IoT) with NODEMCU (free kit worth 2890 INR)**
- **Internet of Things (IoT) with ARDUINO and WIFI module (free kit worth 3400 INR)**
- **Robotics with ARDUINO (free kit worth 2570 INR)**
- **Robotics with AVR (free kit worth 2200 INR)**
- **Embedded systems with ARDUINO (free kit worth 2670 INR)**
- **Python with Raspberry Pi (free kit worth 1290 INR, Not included Raspberry Pi)**
- **Robotics with MATLAB (free kit worth 2570 INR)**

Introducing:

Artificial Intelligence with Machine Learning using Python (only 30 seats) – With FREE software kit

A 30 days Training cum Internship Program on

ARTIFICIAL INTELLIGENCE WITH MACHINE LEARNING USING PYTHON

Attend a single program and get 2 different certificates
1. Winter training 2. Industrial Internship

7,999 INR

Register before 12th January and get an early bird discount of 20%

6,399 INR

Book your seat now!!! *Call +91-9818631137*

Training Center:
#803, Giri ganga building, 9th A main Indiranagar, 1st stage, Bengaluru

Other Courses:
IoT with NodeMCU, IoT with Arduino, Python with Raspberry pi, Robotics with MATLAB, Embedded system with Arduino, Robotics with AVR, Python, Android application development, Website development using CMS

Duration:

For all courses - 30 days (2 hours per day) with loads of practical hands on sessions

Training center:

#803, 2nd Floor, Giri Ganga building, 9th 'A' Main, Indira nagar 1st stage, Behind HDFC, Opp to Nagarjuna Hotel. Bangalore, (Near Indiranagar metro station)

Eligibility:

B.E. | B.Tech | M.E. | M.Tech | BCA | MCA (Any year, any branch)

Investment:

For courses with FREE Software kit per candidate:

5999 INR per candidate (Group discount available)

For courses with FREE Hardware + Software kit per candidate:

7199 INR per candidate (Group discount available)

For Artificial Intelligence with Machine Learning using Python course:

7999 INR per candidate (Group discount available) (Early bird registration discount available)

- Group means 4 or more candidate registering together
- Group discount across all courses are flat 10% (fee will be reduced by 10% for each candidate)
- Early bird registration discount is flat 20% (fee will be reduced by 20% for each candidate) (This discount is only valid for AI with ML using Python course)

Register Now.
